

WILLY EDDY

ABOUT ME

I'm a designer and illustrator living and working in Seattle WA. My focus includes visual design, digital illustration, and layout. I have a sculpture background and love making art, but I realized early on I liked solving other's visual problems more than ones I made up myself. I've lived on the East coast and the West coast, and I'm too nice for the former and a little to direct for the latter. I own 20 pairs of wingtips, I'm an avid magazine collector, sci-fi nerd, and while late to the game, just discovered how awesome Paul McCartney is.
